

To The Falmouth Enterprise – Friday August 24, 1990

Ladies & Gentlemen,

In as much as the renovation and construction of my home is now complete, I want to acknowledge and thank publicly, Mr. Ralph Cataldo of the Cataldo Building Company of East Falmouth, and also his subcontractors for the job that was so well done that the total experience was a pleasure to me. This project, quite complicated in some of its aspects, was so well planned, organized and executed that I continue to marvel at the care, the talent, the character and the dedication of Ralph Cataldo and his associates; moreover, I have never observed such attention to detail relative to quality, to costs, to time, to permitting and to excellence. Accordingly, I believe that his great worth deserves public recommendation, public thanks.
